

Lightweight Aluminium Telescopic Drape Support System

Telescopic Drape Supports (Horizontal)

HOOK DESIGN

Part no.	Collapsed Length	Range
TDS35	91cm	3' to 5'
TDS681	188cm	6' to 10'
TDS712	218cm	7' to 12'

- Heavy gauge zinc-plated steel hook
- Low profile will not snag drapes during installation or removal
- Deep engagement slot minimizes accidental removal from uprights
- Low centre of gravity reduces twisting
- All tubing surfaces have protective clear anodised coating that keeps drapes clean

TDS35	Stops at	3' and 5'
-------	----------	-----------

TDS681	Stops at	6'2" - 8' - 10'
TDS712	Stops at	7'2" - 10' - 12'

Note : Drape support can be used at any length between fully collapsed length and maximum stop length. Units with collapsed length of 5' or longer can extend approximately one foot over maximum stop.
